

Acting Chief, Economic Research

20 September 1956

Chief, Materials Division

Transmission of Draft Report Project No. 20.868

1. The revised draft of subject project entitled "Supply and Demand of Sulfur in the USSR," is hereby submitted.

2. The original draft of the report was returned to this Division by Ch/E for certain reworking. Specifically, Ch/E desired to have better support for the estimate of sulfur production from pyrites available as a by-product of copper mining in the Urals. This information has been provided in the appendix on methodology, pages 36 through 40. Certain changes created by the reworking of the Urals pyrites data have been incorporated in the text where appropriate.
